PROFESSIONAL SUMMARY

Motivated and detail-oriented IT student with strong skills in full-stack development, data structures, and problem-solving. Experienced in building scalable web applications using modern technologies like React, Node.js, and TypeScript. Passionate about developing efficient software solutions and continuously improving technical expertise through hands-on projects and competitive programming.

EDUCATION

Bachelor of Engineering (Information Technology)
G.H Raisoni College of Engineering and Management, Pune, India (2023 – 2027)

- CGPA: 8.44
- Relevant Coursework: Data Structures & Algorithms, DBMS, Web Development, Operating Systems

---

TECHNICAL SKILLS

- **Programming Languages:** C++, JavaScript, TypeScript, Python
- **Frontend:** React.js, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, Authentication Systems
- **Databases:** MongoDB, MySQL, Database Design
- **Tools & Others:** Git, GitHub

PROJECTS / INITIATIVES

Spendyzer – Full-Stack Expense Tracker & Analyzer

- Developed and deployed a full-stack personal finance application with real-time expense tracking and analytics

- Built scalable architecture using TypeScript for both frontend and backend
- Designed database schema using Drizzle ORM for efficient CRUD operations
- Integrated data visualization to provide insights into spending patterns

AI Study Buddy – Smart Learning Assistant

- Developed an AI-powered learning assistant that allows users to upload PDFs/notes and automatically generates summaries, quizzes, and flashcards for efficient studying
- Implemented semantic search using embeddings and a vector database to enable accurate question-answering from uploaded content
- Integrated LLM APIs to provide concept explanations and personalized learning support
- Designed a responsive frontend using React and built scalable backend services with Node.js

---

ACHIEVEMENTS

- Solved **200+ problems** across LeetCode, Codeforces, CodeChef, and GeeksforGeeks
- Strong foundation in **Data Structures & Algorithms** through consistent practice
- Active participant in competitive programming contests

COMPETITIVE PROGRAMMING

- **Codeforces:** Participated in multiple contests solving diverse algorithmic problems
- **CodeChef:** 2-Star rating (1680), solved problems across various difficulty levels
- **LeetCode:** Solved 200+ questions focused on DSA and coding efficiency
